DataSys Makes the Move to New Headquarters

Marlborough, Mass. – April 1, 2009

DataSys Corporation has moved from 4 Mount Royal Drive to 2 Mount Royal Drive in Marlborough, MA.

The new space provides DataSys with the opportunity to expand the size of its training room. According to Tracy Bohush, Applications Consultant and Microsoft Certified Business Management Professional, “We have seen a marked increase in the demand for training in 2009. Just about every class has been full this year, and we’ve added two FRx classes in May to accommodate so many requests. With the new training room, we expect to double our training revenues this year.”

Lisa Daigle, President, commented, “Our eight-year relationship with Haynes Management paid off. They brought us the opportunity to terminate our lease early and move to improved space for less money. Like every company out there, cost savings are an important part of hitting our numbers in 2009. Best of all, we love our new space.”
