Tracy Bohush Attains Prestigious Great Plains Certification

Marlborough, Mass. – January 16, 2009

Tracy Bohush, an Applications Consultant at DataSys Corporation, has passed the required exams to attain the Microsoft Certified Business Management Solutions Professional certification. This premier designation recognizes Tracy's deep and broad knowledge of many Great Plains modules, including FRx.

The collective exams consumed some 100+ hours of study time, attesting to Tracy's focus and determination. DataSys' customers benefit from the knowledge she gained during the study process, and her co-workers benefit from her ongoing contribution to DataSys' knowledge base. In addition to Tracy's certification, she has been working with Great Plains for more than five years, and has long-standing industry experience in a variety of accounting positions.

DataSys customer, WorldWinner, Inc., has been working with Tracy for almost two years. WorldWinner hosts more than 20 million online competitions each month for some of the most popular games such as Solitaire and Bejeweled 2. According to Karen Dullea, Manager of Financial Reporting, "Tracy Bohush has been our Great Plains consultant for almost two years. She has consistently aced every question we've put to her and has in-depth knowledge of the many Great Plains modules that we use." Adds Karen, "Tracy is great! Very easy to work with!"

According to teammate Michael D. Newman, Senior Engagement Management, "The Microsoft Dynamics Master certification is one of the most difficult certifications to achieve, and we are proud to have one of the few Masters on our implementation team. Tracy worked hard to pass the exams while staying focused on meeting customer needs. Congratulations to Tracy!"

About DataSys Corporation

DataSys Corporation, a Microsoft Certified Business Solutions Partner specializing in the implementation of Microsoft Dynamics GP, helps midmarket companies meet their objectives by improving access to mission-critical information. For over ten years, DataSys has built long-term productive relationships that benefit from a deep understanding of its clients' business and cumulative years of experience with Great Plains software. DataSys harnesses the power of Great Plains' functionality, reporting, integration, and customization capabilities to deliver a comprehensive business management solution that expedites core financials, human resources, payroll, project accounting, distribution, warehouse management, and e-business.
