### **DataSys honored with Microsoft President's Club Award**

Marlborough, Mass. – July 12, 2006 – DataSys Corporation recently received recognition for the eleventh straight year from Microsoft for outstanding customer commitment and sales achievement, and was named to the Microsoft Business Solutions President's Club. This recognition honors those partners whose commitment to customers is reflected in their business performance and high level of sales achievement and customer satisfaction.

The Microsoft Business Solutions President's Club is reserved for its top channel partners. By achieving President's Club, DataSys Corporation has shown that their business has the expertise, the resources, and the level of commitment it takes to serve their customers well.

DataSys customer Hilary Croach of Bay Cove Human Services offered appreciation of DataSys' commitment. "Everyone at DataSys shows a true commitment to their 'Customer of One' philosophy, so it comes as no surprise that DataSys is a perennial Microsoft President's Club Award recipient," said Croach. "The DataSys team has always done a great job of delivering the right blend of Microsoft solutions, backed by great implementation services. From our initial purchase and throughout our ongoing, seven-year relationship, Microsoft Great Plains Dynamics and DataSys meet the needs of the nonprofit industry. The President's Club designation, in Bay Cove's mind, is about the way that DataSys has delivered on its mission to Bay Cove."

According to DataSys President, Lisa Daigle, "Although we set out to thank our customers on a daily basis for the past 11 years, we again welcome the chance to say 'Thank You.'"

#### **About DataSys Corporation**

DataSys Corporation, a Microsoft Dynamics Certified Partner specializing in the implementation of Dynamics GP (formerly Great Plains), helps midmarket companies meet their objectives by improving access to mission-critical information. For over ten years, DataSys has built long-term productive relationships that benefit from a deep understanding of its clients' business and cumulative years of experience with Dynamics GP software. DataSys harnesses the power of Dynamics GP' functionality, reporting, integration, and customization capabilities to deliver a comprehensive business management solution that expedites core financials, human resources, payroll, project accounting, distribution, warehouse management, and e-business.
