

March 2005 Tip of the Month

An R8 customer can make navigating the new palettes in Great Plains a breeze by using the new shortcut icons on the toolbar.

Simply go View/Toolbars and check which module icons you'd like to appear in the upper right hand corner of your Great Plains Main Window.

An extra trick is that you can show the name of those icons for easy identification. Go to View/Toolbars/Customize. Choose the toolbar you wish to modify. Click on the modify selection button and choose image and test. Voila! The name of the window will show up next to the icon. Who needs those old palettes anyway!
