### DataSys Attends Microsoft Directions 2019 Conference

Boxboro, Mass. – May 6, 2019

DataSys President and Founder, Lisa Daigle, attended Microsoft's Directions 2019 conference with an exclusive focus on Dynamics 365. In aligning DataSys' strategy with Microsoft's offering, DataSys has launched a new practice area for Dynamics 365 Business Central.

According to Lisa, "In addition to launching this new practice area, DataSys remains deeply committed to supporting its more than 100 customers on Microsoft Dynamics GP. In our 24<sup>th</sup> year of implementing and supporting GP, we continue to invest in staff education for GP. For many customers, GP remains the best choice for years to come, whereas other customers might choose to migrate to the Business Central's subscription-based, Cloud offering.

DataSys has spent almost 25 years building effective industry partnerships for GP, and these trusted relationships are also deploying their products on Business Central, making this strategic expansion a logical choice for DataSys.

For more information on Dynamics 365 Business Central, please contact Lisa Daigle at <mailto:LDaigle@DataSysCorp.com>
