For immediate release

## DataSys Begins 27<sup>th</sup> Year of Business

Boxboro, Mass. – January 1, 2023

*Time flies when you're having fun* could be one of DataSys' mantras, but instead, a quote by Albert Schweitzer on DataSys' home page best reflects the DNA of our culture: *I don't know what your destiny will be, but one thing I know: The only ones among you who will be really happy are those who have sought and found how to serve.*

From the outset, DataSys has sought to build effective and caring relationship with customers and business partners. We treat every customer's business as if it were our own, which is to say we make thoughtful and thorough decisions in a customer's best interest. We limit our engagements to those industries where we understand the business challenges and needs for efficiency; we would refer a potential customer to an outside colleague if the customer was best served by someone else.

With considerable expertise in Great Plains since 1996, DataSys has been steadily building expertise in Microsoft Dynamics 365 Business Central. Most of our Great Plains best practices, established in 1996, are applicable to Business Central, with a particular focus on project planning and testing.

Says Lisa Daigle, Founder and President, "I am proud of our many accomplishments, especially the opportunity to work alongside DataSys team members and the industry's best vendors, including Microsoft."

We look forward to serving customers well into the future.
